Model Overview

Model	Engine	Output	Production	Launch
GLA 250 4MATIC (156.946)	2.0L Turbo I4	208 hp 258 ft/lb	March 2017	April 2017
Mercedes-AMG GLA 45 4MATIC (156.952)	Handcrafted AMG 2.0L Turbo I4	375 hp 350 ft/lb	March 2017	April 2017

The facelift gives the GLA an even more powerful appearance with even more off-road character – contributing to this are primarily the modified radiator grille and the front bumper. The sense of high-class appeal has also been visibly enhanced at the same time through the generous use of silver chrome for numerous controls as well as attractive new trim elements. Visually and technically, the GLA benefits among other features from optional LED High Performance headlamps.
